## A place to connect, to share and to learn

“A physical location for foreign residents to connect with people, share ideas and learn about the USA through collaboration and self-discovery.”

<https://americanspaces.state.gov/home/>

## Core programs of American Spaces

1. Provide accurate, compelling, timely and audience appropriate **information about the USA** – its history, culture, society, values and foreign policies.
2. Facilitate **English language learning** through access to English language speakers, resources, computers and internet access.
3. Promote **higher education study in the USA** by providing international students with accurate, comprehensive and current guidance on applying to US colleges and universities.
4. Foster people-to-people connections, increase understanding and build respect with host country audiences through **cultural programs**.
5. Support **continuing engagement with US government exchange program alumni**, connecting them to local audiences through alumni programs in which credible, local voices can share firsthand information about the United States and American values.

All  
activities  
are  
**FREE!!!!**

## Core programs of American Spaces

**Skills Building:** *to empower current and future leaders to develop skills in a wide array of areas that will help them meet global challenges, mitigate crises, support inclusive and sustainable economic growth and opportunity, and more.*

This programming Pillar encourages American Spaces to draw on a wide range of post expertise and Department public-facing resources to teach skills such as:

- critical thinking
- media literacy
- resume writing
- how to launch entrepreneurial projects
- how to strengthen professional skills
- how to use makerspace equipment
